

Meet Your Employer

Roche is a global pioneer & leader in Personalised Healthcare. We provide breakthrough differentiated medicines and diagnostic tests using expertise in Science, Technology and Data so that people can live better lives. We are living in truly historic times. The rapid digitalisation of healthcare is fueling an accelerated transformation in our industry. This change requires leaders who are entrepreneurial, and who trust & encourage teams to take risks, while learning and progressing quickly.

Roche has designed 3 global rotational development programmes to offer talented professionals at an early stage of their career an unparalleled opportunity to gain a breadth of experience across multiple functions, giving them a springboard to become those leaders who will shape the future of the company, making significant contributions to our purpose: "Doing now what patients need next".

- Business Perspectives
- Finance Perspectives
- HR Perspectives

If you want to learn more about our Perspectives Programmes, attend our online WEBINAR taking place:

12 September 2018 at 6-7pm CET.

Joining the online Webinar is as easy as 1-2-3 (also from mobile devices!)

1. Go to go.roche.com/Perspectives_Webinar
2. If requested, enter your name and email address
3. Click "Join"

Business Perspectives is hiring! We are accepting applications beginning September 2018. The Programme starting dates will be in Q2-Q3 2019, based on your availability. You can find more information on roche.com/businessperspectives

Ideal candidates are excited to work at the confluence of technology & science/medicine, and possess business acumen. Applicants should bring 3-5 years of work experience in one of the following industries: Pharmaceuticals, Diagnostics, Biotechnology, Medical Technology, Information Technology (healthcare-oriented preferred) or Consulting to Healthcare. Additionally, they will have gained exposure to either commercial roles, or projects related to innovation in digital or advanced analytics technologies for the healthcare industry.

*Because it's not just a job. It's a
responsibility. A big one.
The next step is yours.
