Your next internship could change your life. And millions of others.

You want a job where you can influence your own development. You're looking for a company where you have the opportunity to pursue your interests across functions and geographies. You want a challenging career and the ability to find a healthy relationship between your personal and professional life.

Whether you're an engineer, a marketer, or work in IT, you want a job where your benefits are matched only by the benefit of knowing you are making a difference to millions.

Intern at Roche Diagnostics.

Roche is an equal opportunity employer.
As a global leader in healthcare, Roche Diagnostics offers a broad portfolio of tools that help healthcare providers in the prevention, diagnosis and management of diseases like HPV, HIV, hepatitis and diabetes as well as other medical conditions, such as fertility and blood coagulation. These products and services are used by researchers, physicians, patients, hospitals and laboratories worldwide to help improve people’s lives.

Our Indianapolis campus is home to U.S. research and development, laboratory, manufacturing, distribution, IT and administrative operations and represents several business areas: Diabetes Care, Professional Diagnostics, Molecular Diagnostics, Tissue Diagnostics and Centralized Diagnostics.
