Forward-looking statements

This presentation contains certain forward-looking statements. These forward-looking statements may be identified by words such as 'believes', 'expects', 'anticipates', 'projects', 'intends', 'should', 'seeks', 'estimates', 'future' or similar expressions or by discussion of, among other things, strategy, goals, plans or intentions. Various factors may cause actual results to differ materially in the future from those reflected in forward-looking statements contained in this presentation, among others:

- 1 pricing and product initiatives of competitors;
- 2 legislative and regulatory developments and economic conditions;
- 3 delay or inability in obtaining regulatory approvals or bringing products to market;
- 4 fluctuations in currency exchange rates and general financial market conditions;
- 5 uncertainties in the discovery, development or marketing of new products or new uses of existing products, including without limitation negative results of clinical trials or research projects, unexpected side-effects of pipeline or marketed products;
- 6 increased government pricing pressures;
- 7 interruptions in production;
- 8 loss of or inability to obtain adequate protection for intellectual property rights;
- 9 litigation;
- 10 loss of key executives or other employees; and
- 11 adverse publicity and news coverage.

Any statements regarding earnings per share growth is not a profit forecast and should not be interpreted to mean that Roche's earnings or earnings per share for this year or any subsequent period will necessarily match or exceed the historical published earnings or earnings per share of Roche.

Our objectives for 2008

Sales

- High single-digit local currency sales increase for Roche Group (excl. Tamiflu pandemic¹)
- Above-market sales growth¹ in both divisions

Core EPS

- Core earnings per share target² at least at record 2007 level despite significant increase in R&D investment and considerably lower Tamiflu pandemic sales

Shareholder return

- Continuous increase in dividend pay-out ratio over the next 3 years

¹ Excluding government and corporate stockpiling orders of Tamiflu for pandemic use
² At constant exchange rates

Barring unforeseen events
