This offer represents a substantial premium to Illumina's unaffected market prices: a premium of 64% over Illumina's closing stock price on December 21, 2011 – the day before market rumors about a potential transaction between Roche and Illumina drove Illumina's stock price significantly higher – and a 61% premium over the one-month historical average and a 43% premium over the three-month historical average of Illumina's share price, both as of December 21, 2011.
